TEMPORARY

NO. 61863

T

APPLICATION FOR PERMISSION TO CHANGE POINT OF  
DIVERSION, MANNER OF USE AND PLACE OF USE OF THE  
PUBLIC WATERS OF THE STATE OF NEVADA  
HERETOFORE APPROPRIATED

Date of filing in State Engineer's Office JAN 19 1996

Returned to applicant for correction FEB 09 1996

Corrected application filed FEB 26 1996

Map filed FEB 26 1996

\*\*\*\*\*

The applicant **ROUND MOUNTAIN GOLD CORPORATION**, hereby makes application for permission to change the Place of Use, Point of Diversion and manner of use of water heretofore appropriated under 55501

\*\*\*\*\*

1. The source of water is underground
2. The amount of water to be changed 1.5 cfs
3. The water to be used for dewatering, mining and milling
4. The water heretofore permitted for domestic, mining and milling
5. The water is to be diverted at the following point SW $\frac{1}{4}$  NE $\frac{1}{4}$ , S30, T10N, R44E, M.D.B.&M. DW-18
6. The existing permitted point of diversion is located within SE $\frac{1}{4}$  SE $\frac{1}{4}$ , S19, T10N, R44E, M.D.B.&M. at a point from which the SW corner of said S19 bears S 87 degrees 02' 33", W 4,013.85 feet distant
7. Proposed place of use within sections 17, 18, 19, 20, 29, 30 & 31 of T10N, R44E M.D.B.&M. (portions unsurveyed) and in sections 13, 23, 24, 25, 26, 35 & 36 of T10N, R43E, and in sections 1 & 2 of T9N, R43E.
8. Existing place of use within sections 17, 18, 19, 20, 29 & 30 of T10N, R44E, M.D.B.&M. (portions unsurveyed) and in sections 13, 23, 24, 25 and 26 of T10N, R43E, M.D.B.&M.
9. Use will be from january 1 to December 31 of each year.
10. Use was permitted from January 1 to December 31 of each year.
11. Description of proposed works drill & case well in pit with electric motor or submersible pump.
12. Estimated cost of works \$75,000.00
13. Estimated time required to construct works One (1) year
14. Estimated time required to complete the application of water to beneficial use Two (2) years
15. Remarks:

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This temporary permit to change the point of diversion, place of use and manner of use of the waters of an underground source as heretofore granted under Permit 55501 is issued subject to the terms and conditions imposed in said Permit 55501 and with the understanding that no other rights on the source will be affected by the change proposed herein. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. This source is located within an area designated by the State Engineer pursuant to NRS 534.030.

This temporary permit will allow the permittee to dewater the pit area.

It is understood that any water pumped as a result of the production and dewatering operation shall be used first by the permittee for mining, milling, heap leaching, drilling, road watering and other related mining uses within the described place of use on this permit.

Any water pumped and not used for mining and milling purposes shall be infiltrated back to the Smoky Valley Groundwater Basin. The permittee shall discharge water in a manner to achieve maximum conservation of the water resource. It is understood that this right must allow for a reasonable lowering of the static water level.

The State Engineer will retain the right to require additional monitoring of the water levels in observation and monitor wells and of the flow rates of surface sources. The permittee, on a schedule acceptable to the State Engineer, shall prepare and present an update on the activities of the mine and the monitoring on a periodic basis, but not less than two times per year.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate land.

The issuance of this temporary permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies and is specifically issued contingent upon approval by the Nevada Division of Environmental Protection of the dewatering project.

The total combined duty of water for consumptive purposes under Permits 536; 1077, Certificate 267; 2908, Certificate 353; 3898, Certificate 2347; 12442, Certificate 3831; 12445, Certificate 3832; 12768, Certificate 3751; 14119, Certificate 4889; 26650, Certificate 13904; 26652, Certificate 13905; 44297; 44299; 44300, Certificate 13174; 50971; 51577; 51578; 53365; 55498; 55500; 55501; 55502; 55503; 59217; 59218; 60874; 60875; 60876; 61086-T; 61087-T; 61565-T; 61566-T; 61567-T; 61568-T; 61791-T; 61863-T; 62040-T; 62184-T and 62185-T shall not exceed 13,910.0 acre-feet annually.

A monthly report shall be submitted to the State Engineer within 15 days after the end of each calendar quarter which shall include: (A) The volume of water pumped from each well, (B) The measurement of pumping water level (drawdown) from each production, dewatering and monitoring well, (C) The volume of water consumptively used for mining and milling uses projectwide, (D) The volume of water used for dust control purposes projectwide, and (E) The amount of water discharged for infiltration.

A method that estimates the amount of evaporative losses from the discharge system shall be submitted with the monthly report. The evaporative losses will be considered as part of the combined duty for consumptive purposes.

The State Engineer retains the right to impose future conditions as necessary upon review and evaluation of all data submitted reporting on the dewatering program, water use and the monitoring plan. The State Engineer retains the right to regulate pumping from the dewatering project and/or any other groundwater withdrawals herein authorized to protect the public interest and existing rights.

All of the above stated conditions are subject to having no adverse impacts on existing rights.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on July 21, 1997 at which time all rights herein granted shall revert to the right being changed by this temporary permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.5 cubic feet per second, but not to exceed 1,086.0 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before:

Proof of completion of work shall be filed before:

Application of water to beneficial use shall be filed on or before:

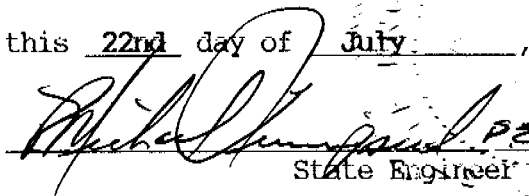

Proof of the application of water to beneficial use shall be filed on or before:

Map in support of proof of beneficial use shall be filed on or before:

TEMPORARY

IN TESTIMONY WHEREOF, I, R. MICHAEL TURNIPSEED, P.E.,

State Engineer of Nevada, have hereunto set  
my hand and the seal of my office,  
this 22nd day of July, A.D. 1996

  
State Engineer
